Having gained indepth experience in design, manufacturing and application engineering, "Sando Group" continuously innovates new products and services.

With the humble beginning in the year 1982, "Sando Group" introduced state of the art product in collaboration with CIBA Switzerland by introducing CERAMIC and GRAPHITE Pumps, First time in India.

In the year 1990, "Sando Group" introduced Magnetic Drive Sealless Pumps, Agitator Drives, Laboratory Autoclaves, Bottom Agitators, again First in India using Magnetic Drive Technology. These are unique equipments which has received overwhelming response because of Pollution Free Green Earth initiatives by Chemical Industries & the Government World Over. Lately Since 2010, "Sando Group" started offering API 685 & ANSI Standard Pumps for TOUGHEST application in Petroleum Refinery, Petrochemical Industries, and Oil & Gas Sectors.

"Sando Group" is well versed with engineering plastics technology & hence it has started international quality PVDF, PFA and Teflon Lined Pumps & Valves. These Pumps & Valves have very wide applications in Chemical Process Pumps.

At "Sando Group" we strive to develop products at our R & D Centre for the good of the society and mankind and try to improve the quality of life for the generations to come. We believe that technology upgradation will uplift the society at large.
